## **Editorial:**

It gives me immense pleasure to put forth before you the 2<sup>ND</sup> EDITION of “E- Magazine” of Dept. of Civil Engineering, DBIT. This is for the period from October 2018 to June 2019. This news letter, highlights the important events that took place in the department. This semester was quite an ‘eventful’ for the department. We could organize many student development oriented programs along with programs for the faculty too. The events in this semester started with a workshop on ‘Revit Architecture’ and subsequently we conducted a workshop on ‘Plumbing & Sanitation’, ‘Foundations of Real Estate Management’, ‘Use of Total Station for Advanced Surveying’ etc. The main event for this semester was “FAER – TBR” programme for the the High school students, in association with ‘FAER’.

Many other events have also been included in this edition of the E – Magazine
