Hi all....

It is painful that We are still passing through the pandemic phase, which has flawed the academic & other activities of the institute.

At this juncture, I am reminded of Bryan Adam's very famous song – "Here I am, This is me" -

Here I am...

Here we are, we've just begun  
and after all this time, our time has come  
Yeah here we are, still going strong  
Right here in the place where we belong...  
It's a new world, it's a new start

Yes, it's a new world, a new beginning for all of us..

I am happy to present before you the 5th Edition of the news magazine showcasing various activities conducted through ONLINE/OFFLINE mode, irrespective of the trepidation of pandemic.

We organized "ENGINEERS DAY", seminars/webinars for faculty & students were conducted regularly.

It is needless to say that the department could achieve its targets with the help of the management, Principal and support of the faculty and the students.
